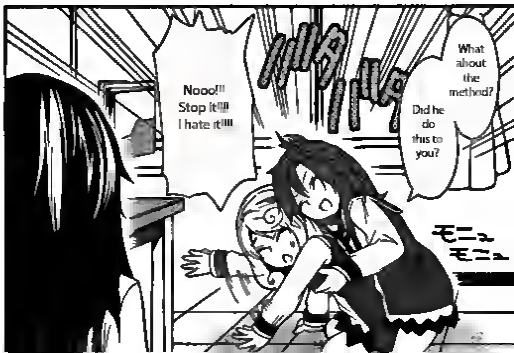
第2楽章——それいけ痴漢電車

下腹部を露出して描き上げました！

あわ箱

tn note: Both Amana and Riku strapped a large thumb like figure behind their back and initiated a thumb wrestling



This method is sickening

Let's apprehend the molester and it might free Mizuho from her regrets...
I agree!!
Tha... Thank you
But about the regret part...
Geez...
Why did you come to my office for?
It is because you are Asaga.
Well, I think you might know something about molesters..
Hey!!... I know nothing about molesters
Come on... Please tell us the way to apprehend this molester
Ahhh... Don't look too depressed will ya...
Speaking of that Isn't it better to obtain some detailed information from that guy first?
!

YA…..
YAMATO!!!
Professor
He regained his authorities again…..
It was your entire fault that I got fired from that research institution and fortunately, I was reemployed in this school
W…Wh…. Why are you in this school!?
Hmm ….
I managed to eavesdrop on your conversations earlier
I have just 1 thing to say to you girls…..
They shouldn't hire a sex criminal like you as part of the teaching staff……
I sacrificed 3 of my precious lolicon books to the principal and I was immediately reemployed.

I will absolutely help you out in this case!!
HELP MY ASS!!!
ARGG-GG!!!
Now, let's proceed with our meeting
Come on girls, be a little gentle with him.....
The Next Morning

What is with those costumes?
This is the suit for the operation.
Mine's the same too
If you don't mind listening to me for once ... what about my costume?
You have none ...
Your role is to be the bait and lure the molester out into the open ...
Oh I see.
Now, let's hurry up as we are running out of time.
Hey perverted criminal, stop complaining or I'll bash you up again!!
Anyway, Why the hell am I suppose to tag along with those kiddies ...
ガッ

Amana retires ...

What the ..!!
Hey, what the hell you think you are doing!!
Hey what are you girls doing ..don't just stand there!!
Dammit, it is not a metal tip penis that can bend backwards you know!!?
You moron!!
The opposing friction will cause the penis to act as an anchor!!
Forward Direction
Shaft Friction (Large)
Shaft Friction (Small)
You see, moving forward will be the best option as it will cause the penis to bend backwards
Shut up!! You foolish tiny breasted girl!!
Hey you fool, what if the station's attendants found you doing this crazy act!!
please don't say it too loudly
No way ..
Hey, you there!!
PANT

Come on.... please follow me
Don't worry, I will just be giving you a full body examination
Ehh....?
Hey Missy, you mustn't board the train in this outfit
Ahh.... me!?
But of course I will search every part of you.... Now come with me....
Quickly
Ladies first....
Should I rely or should I not rely on you?
プシュー

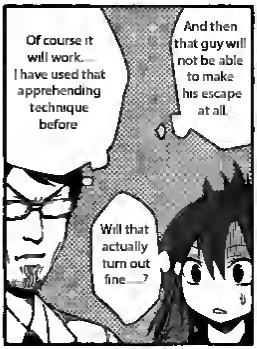
I... I have no idea
Why would it be you?
さわ



Of course it will work.... I have used that apprehending technique before
And then that guy will not be able to make his escape at all.

Hitting and retracting huh
It seems this molester has quite some skills
Nevertheless!!

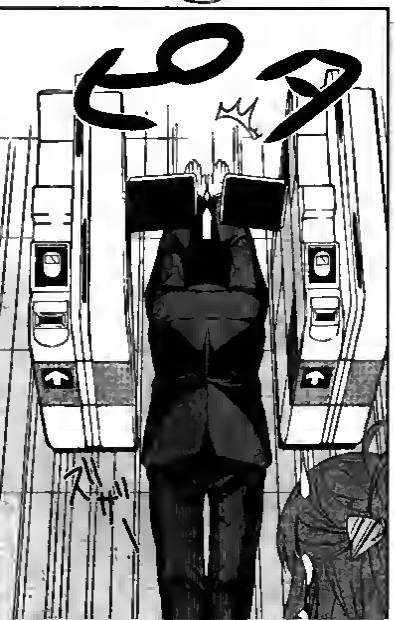
Giv
Give yourself up!!
Hey you... Have you ever thought about something?

Don't say stuff like you know them so well despite being a molester!!
You know very well I am not exaggerating and in this case we as molesters will cleanse this corrupted society This world that I hate
ARGGGG!!!

This is because the crime rates exceed 200% while ending a train and the railroad corporation isn't making any effort to improve the security.



The time has not yet come for me to be caught by the likes of you.
Tch..

!!
See you later, little warrior.

Forward Direction
Backwards Friction
Dammit..... My penis acted as an anchor and halted my movements.
I am stuck ....!!!
EVIL BREAKER!!
ARGG-GGG!!!!

Take a look!!
Of course I did.
Did you managed to apprehend the molester?
Oh Riku Chan.....
Hey Girls.
Ehh?
